

It has come to my attention that Low Power FM (LPFM) may impact existing FM translators.

I currently listen to K-LOVE over FM translators (88.3 and 102.7). K-LOVE has proven to be very beneficial to our local community, and it would be a loss to have it displaced by LPFM.

I have found no other programming on FM that is like K-LOVE and provides so much to families and the community.

I request that you consider the impact that LPFM expansion would have on K-LOVE, and encourage you to not displace K-LOVE's FM translator broadcasting by LPFM service.
